COVID VACCINE UPDATE

Updated COVID guidance from the CDC recommends an **additional dose** of the 2023-2024 Updated COVID-19 vaccine for adults ages 65 years and older

WHO?

Adults aged 65 years and older are eligible to receive the additional booster if it has been at least 4 months since receipt of the updated COVID-19 vaccine.

- Revisions to isolation guidance may change exposure to COVID-19.
- An additional dose of the updated COVID-19 vaccine may restore protection that has waned. An additional dose may increase protection from severe COVID symptoms.
