

Dear Neighbors,

Welcome to our township website.

As incoming mayor I want to thank Dr. Shing-Fu Hsueh for his long service to West Windsor, encompassing 8 years on town council and 16 and a half years as mayor. During that time we have experienced substantial population growth and the inevitable issues that come with it. Dr. Hsueh, his administration, and our town council have worked together to maintain the numerous amenities that make West Windsor such a desirable place to live and raise a family, and we will continue to do so.

Our challenge in the years ahead will be to maintain and improve our quality of life, and my main task as your new mayor will be to limit future population growth as much as possible. This will help minimize the stresses on our schools, roads, bridges, and other infrastructure and will also limit property tax increases. I am counting on my administration and your council members to work with me towards that end.

I encourage you to get involved by registering for our township e-bulletins and attending our biweekly town council meetings, where you can make suggestions during the public comment periods. I look forward to seeing you there!

Sincerely,

Hemant Marathe, Ph.D.
Mayor
