

COVID-19 AND CAREGIVING WITH PRIDE

An education program presented by the Alzheimer's Association®

WHAT YOU NEED TO KNOW ABOUT COVID-19 AND DEMENTIA

Most likely, dementia does not increase risk for COVID-19. However, dementia-related behaviors, increased age and common health conditions that often accompany dementia may increase risk.

Join us to learn about additional precautions you can take to help keep people living with dementia safe during the COVID-19 pandemic, whether at home or in a residential care setting.

**Thursday, May 19, 2022
6 - 7 p.m.**

**VIRTUAL presentation and
community panel discussion**

**RSVP at 800.272.3900 or
<https://action.alz.org/mtg/80806468>.**
