APPLICANT

TOWNSHIP

- X 1) Locator map at a scale of one inch equals two thousand feet (1"=2,000'), or larger scale, showing the lot and block number of the parcel in question and the lot and block number adjacent and opposite properties. This map should also show any contiguous lot in which the applicant has any direct or indirect interest, and the nature of the applicant's interest.
- X 2) An aerial photograph superimposed upon the plans with the track boundaries outlined. Also photographs of the property where necessary to show any unusual topographic, environmental or physical aspect of the site. This would included but not be limited to rock outcroppings, vegetation, natural drainage ways, wetlands and existing structures and improvements.
- X 3) A preliminary plan at a scale of one inch equals fifty feet (1"=50'), or larger scale and any supplemental plans that are necessary to properly depict the project. In the case of a complex project a scale other than one inch equals 50 feet may be submitted provided that one copy of a photomechanical reduction to a scale of one inch equals fifty feet is submitted. The preliminary plan shall show at least the following information:
- X (a) North arrow, scale, graphic scale, date and notes and dated revisions.
- X (b) The zoning district in which the parcel is located together with the district boundaries included within the boundaries of the parcel or within two hundred (200) feet therefrom. All setback lines, landscape strips, landscape buffers, building heights and other bulk requirements shall be shown and dimensioned. Any deviation from requirements of this Part 1 shall be specifically shown.
- X (c) Survey map, prepared by a licensed surveyor of New Jersey showing boundaries of the properties, lines of all existing streets and roads, easements, rights-of-way, and areas dedicated to public use within two hundred (200') feet of the development. These shall be dimensioned and where applicable, referenced as to direction.
- X (d) References to any existing or proposed deed restrictions or exceptions concerning all or any portion of the parcel. A copy of such covenant, deed restrictions or exceptions shall be submitted with application.
- X (e) The existing and proposed contours, referred to U.S. Coast and Geodetic Survey Datum, at a contour interval of not less than two (2) feet. Existing contours are to be indicated by solid lines. Location of existing rock outcroppings, high points, watercourses and drainage ways, depressions, ponds, marshes, vegetation, wooded areas and other significant existing features including previous flood elevations of watercourses ponds and areas as determined by survey. Trees of five (5) inches or over in caliper shall be specifically located and identified. Any proposed changes of such natural features shall be specifically noted.
- X (f) The location, size, elevation, slope and type of storm drainage structures above and below grade, whether publicly or privately owned. Design calculations supporting the adequacy of proposed drainage shall be submitted. The Site Plan shall include existing ponds, streams, and watercourses as well as the designated Greenbelt, if applicable.

APPLICANT

TOWNSHIP

- X (g) The location of all existing buildings, bridges, culverts, paving, lighting, signs or any other structures with grade elevations for each structure. Grade elevations may be established from use of Township topographical maps. \_\_\_\_\_
