Child Cell Phone Safety

Using Wireless Devices More Safely

- ◆ Cell phone usage by teens is on the rise
- ◆ Across the world
- ◆ In 1997, 3% of 13 year olds had cell phones
- ◆ In 1999, 50% had cell phones
- ◆ In 2001, over 80% had cell phones

Using Wireless Devices More Safely

- ◆ In 1997, less than 20% of 16 year olds had cell phones
- ◆ In 1999, 80% had cell phones
- ◆ In 2001, almost 100% had cell phones

Using Wireless Devices More Safely

- ◆ Today
- ◆ Cell phone usage by 10 to 17 year olds can be as high as 3 to 4 hours a day
- ◆ 44% of teens said they use text messages as their primary source of communications
- ◆ With text messages being sent from the movies and the dinner table
- ◆ 26% said it's the first thing they do in the morning

Using Wireless Devices More Safely

- ◆ What is the problem ?
- ◆ Cell phones are used to
 - Transmit inappropriate pictures of friends
 - Harass others with hate messages
 - Use text messages to send answers during tests
 - Take pictures of exams and send them to friends

Using Wireless Devices More Safely

- ◆ They are also used to
 - Make drug transactions
 - Make contact with child predators masking themselves as other teens
 - Countless other crimes
 - Distract teen drivers and cause countless motor vehicle accidents

Using Wireless Devices More Safely

- ◆ **CASTLE ROCK, Colo.** -- Douglas County prosecutors investigating reports that middle school students had taken nude pictures of each other on their cell phones and sent them around the school said they found no criminal wrongdoing and will not file any charges.
- ◆ The photos were apparently taken by about 18 eighth graders, boys and girls, at Castle Rock Middle School over the past few weeks. The photos were then viewed or forwarded to as many as 20 students.
- ◆ District Attorney Carol Chambers said Thursday that there is evidence at least one of the photos did get onto the Internet, but there is no evidence of criminal intent or adult involvement.

Camera phones cause privacy scare (Reuters)

Camera phones cause privacy concerns

The camera cell phone, one of the hottest items on this year's Christmas gift list, is a growing privacy issue for both consumers and organisations.

The phones, with their discreet lens, tiny size and ability to immediately transmit images onto the Internet or other cell phones, are a voyeur's dream.

The phones first appeared on the market in early 2001, and for the last several months, media reports out of Asia have called attention to incidents such as nude photographs of unsuspecting victims turning up on the Internet.

Their growing popularity in North America since their debut late last year has sparked similar concerns, prompting fitness centres across North America, from Los Angeles to Toronto, to begin banning or limiting cell phone use on their premises.

With locations including Beverly Hills and New York, The Sports Club/LA, one of the most luxurious fitness centres in the world, was among the first to ban all cell phones in July, limiting their usage only to the lobby.

Privacy is a priority for the centre, whose high profile clientele include celebrities and other prominent figures, company spokesman Rebecca Harris explained.

Using Wireless Devices More Safely

- ◆ What Can Be Done?
- ◆ Parents, grandparents and care givers can follow some easy steps to protect their children

Using Wireless Devices More Safely

- ◆ Set appropriate ground rules for your children's use of wireless devices.
- ◆ Decide who they may communicate with and how they may use these devices.

Using Wireless Devices More Safely

- ◆ Monitor your wireless bill to keep track of the amount of time your children spend talking and sending messages and with whom.
- ◆ Pay special attention to numbers or messages from people you do not recognize or have not approved.

Using Wireless Devices More Safely

- ◆ Teach your children to tell you if anyone sends them a threatening or frightening message.
- ◆ If your children are being stalked, harassed, or threatened in any way, report the incident to the West Windsor Police
- ◆ We have a computer crime investigative team that can handle any computer or cell phone investigation

Using Wireless Devices More Safely

- ◆ Remind your children text messages may be intercepted or used by others.
- ◆ Teach them to use appropriate language in their messages while being sure **not** to reveal personal or identifying information.

Using Wireless Devices More Safely

- ◆ Know your children's passwords and assist them in setting up their account.

West Windsor
Police

Using Wireless Devices More Safely

- ◆ Consider creating settings to control or prohibit access to the Internet, e-mail, and text messaging through your children's wireless device.
- ◆ Remember a global-positioning system (GPS) option, if offered by your service provider, could be used to help locate your children if lost.

Using Wireless Devices More Safely

- ◆ Verizon as well as other cell companies have services like guardian that allow you to locate your child's phone and pinpoint its exact location using your cell phone or the Internet

Using Wireless Devices More Safely

- Monitor your children's wireless use just as you do their online computer use.
- Keep the lines of communication open with your children so they will be more likely to tell you if they have concerns about someone contacting them or information they have received.

Introduction to Family Settings

Xbox 360 Family Settings offer unprecedented flexibility for system setup and management. Parents or system owners can set permissions that allow all members of the household to enjoy Xbox 360 in a user-appropriate environment. This includes not merely deciding what games and DVD movies to allow, but also controlling the ability to establish Xbox LIVE memberships and managing access to Xbox LIVE.

Here you'll find detailed instructions on how to configure Family Settings for:

- Online friends
- Voice and Text Communications
- Video Communications
- Gamer profile viewing
- Gamer profile sharing
- Online status
- Online games
- Member content

Good Messaging Manners

- ◆ *What are some ways you can communicate in cyberspace?*
- ◆ *Which of these communication methods are usually one-to-one?*
- ◆ *Which are usually group communications?*

- In cyberspace, people can't see your facial expressions or hear your tone of voice.
- They have only two ways of judging what you're thinking.
- One way is by the words you choose.
- The other is by the manners you use.
- So, choose them wisely.

Dos and Don'ts for Any Message

- ✓ Do get right to the point—some people have many messages to read.
- ✓ Don't type in UPPERCASE—it means you're shouting.
- ✓ Don't use slang or rude language.
- ✓ Do check your spelling, grammar, and punctuation.
- ✓ Do think twice before using sarcasm. Without hearing your tone of voice, or seeing your facial expression, it's nearly impossible to know that a message is sarcastic.
- ✓ Do use smileys, or emoticons, to make your message clearer.
- ✓ Do stay calm when you get a rude message. Don't respond to an angry reply. A flame war—battling with hot, angry words—is bad manners.

West Windsor
Police

Flame War

- ◆ Flame wars are the cyberspace equivalent of a "put down" or bullying session.
- ◆ In the physical, they may lead to a fight.
- ◆ Because this can't happen in cyberspace, some people are more prone to be rude than when they are face to face.

Online Bullies

- ◆ Cyberspace has many positive experiences and can be a great resource for information and fun.
- ◆ It is important to be able to handle any situation that may occur in cyberspace

Sondra is planning a slumber party to celebrate her birthday. Her parents have set a limit of eight girls, so Sondra can't invite everyone she'd like. Two girls who are left out overhear the plans. Angry, they plan their revenge.

West Windsor
Police

The girls make a “We Hate Sondra Jones” Web site. They say that anyone invited to the party should not go. They tell everyone in school the site’s address. The girls invite everyone to add new reasons why they hate Sondra and to spread ugly rumors about her.

When Sondra hears about the site, she gets a sick feeling in her stomach. Unable to ignore it, she checks the site often. Each day she finds a new nasty comment or joke about her. She feels hurt and powerless to defend herself. Sondra is too embarrassed to go to school and tells her parents she is sick.

For the tenth day in a row, Andrew opens an E-mail that says, "I'm getting closer." He doesn't recognize the sender's address. He wonders if someone at school is trying to scare him. On the other hand, it could be a stranger.

Whatever the source, Andrew is scared.

The next afternoon, Andrew is home alone. The E-mails come every few minutes. “I’m hiding in your house using a wireless Internet connection. You’ll never find me. But I’ll find you.”

Frozen with fear, Andrew can’t think what to do.

◆ Taking Action

– Feeling Uncomfortable

- Embarrassed
- Upset
- Depressed
- Afraid

– Recognize Bullies

- Bullies feel powerful when they bother others
- They use hurtful words or threaten
- The bully is often someone you know
- Easier to be nasty online

◆ Taking Action

- Do Not Tolerate It
- What to do
 - Sign Off
 - Leave the chat room
 - Block Messages
 - Save & Print the e-mails or messages
 - **NEVER REPLY**
 - Talk over what to do with friends
 - **REPORT** your experience to a parent, teacher or other trusted adult

◆ Sondra

- The angry girls have created a safety issue by publishing Sondra's full name-private identity information.
- This information is now available to strangers.
- Such bullying is wrong and unsafe and should be reported to Sondra's parents and to her school.
- She should save a copy of the Web page to provide to whomever she reports the incident to.

West Windsor
Police

◆ Advice for Andrew:

- Andrew should save and print copies of all the E-mails and show them to his parents or another trusted adult.
- How he responds to this incident will affect its outcome
- Keeping his anxiety to himself is not as effective as asking a friend or an adult for help.

- ◆ Against School Rules
 - Disciplinary Action

- ◆ Harassment
 - Police Action
 - Jail or Fines

Blogs

- ◆ **Web LOGS**
- ◆ Myspace.com
- ◆ Facebook.com
- ◆ Many, many, more.....

cked ✓ Check Autolink Add-on Options

40 things guys do wrong in bed MUST READ!

Current mood: 😊 bored

- 1) NOT KISSING FIRST.**
Avoiding her lips and diving straight for the erogenous zones makes her feel like you're paying by the hour and trying to get your money's worth by cutting out nonessentials. A proper passionate kiss is the ultimate form of foreplay.
- 2) BLOWING TOO HARD IN HER EAR.**
Admit it, some kid at school told you girls love this. Well, there's a difference between being erotic and blowing as if you're trying to extinguish the candles on your 50th birthday cake. That hurts.
- 3) NOT SHAVING.**
You often forget you have a porcupine strapped to your chin which you rake repeatedly across your partner's face and thighs. When she turns her head from side to side, it's not passion, it's avoidance.
- 4) SQUEEZING HER BREAST.**
Most men act like a housewife testing a melon for ripeness when they get their hand on a pair. Stroke, caress, and smooth them.
- 5) BITING HER NIPPLES.**
Why do men fasten onto a woman's nipples, then clamp down like they're trying to deflate her body via her breasts? Nipples are highly sensitive. They can't stand up to chewing. Lick and suck them gently. Flicking your tongue across them is good. Pretending they're a doggie toy isn't.
- 6) TWIDDLING HER NIPPLES.**
Stop doing that thing where you twiddle the nipples between finger and thumb like you're trying to find a radio station in a hilly area. Focus on the whole breasts, not just the exclamation points.
- 7) IGNORING THE OTHER PARTS OF HER BODY.**
A woman is not a highway with just three turnoffs: Breastville East and West, and the Midtown Tunnel. There are vast areas of her body which you've ignored far too often as you go bombing straight into downtown Vagina. So start paying them some attention.
- 8) GETTING THE HAND TRAPPED.**
Poor manual dexterity in the underskirt region can result in tangled fingers and underpants. If you're going to be that aggressive, just ask her to take the damn things off.
- 9) LEAVING HER A LITTLE PRESENT.**
Condom disposal is the man's responsibility. You wore it, you store it.
- 10) ATTACKING THE CLITORIS.**
Direct pressure is very unpleasant, so gently rotate your fingers along side of the clitoris.
- 11) STOPPING FOR A BREAK.**
Women, unlike men, don't pick up where they left off. If you stop, they plummet back to square one very fast. If you can tell she's not there, keep going at all costs, numb jaw or not.
- 12) UNDESSING HER AWKWARDLY.**
Women hate looking stupid, but stupid she will look when naked at the waist with a sweater stuck over her head. Unwrap her like an elegant present, not a kid's toy.

Kid accused of MySpace threats faces expulsion

COSTA MESA, Calif. (AP) — A middle school student faces expulsion for allegedly posting graphic threats against a classmate on the popular MySpace.com Web site, and 20 of his classmates were suspended for viewing the posting, school officials said.

Police are investigating the boy's comments about his classmate at TeWinkle Middle School as a possible hate crime, and the district is trying to expel him.

According to three parents of the suspended students, the invi-

tation to join the boy's MySpace group gave no indication of the alleged threat. They said the MySpace social group name's was "I hate (girl's name)" and included an expletive and an anti-Semitic reference.

A later message to group members directed them to a non-descript folder, which included a posting that allegedly asked: "Who here in the (group name) wants to take a shotgun and blast her in the head over a thousand times?"

Underage sex case involves Jersey man

By MATT APUZZO

Of The Associated Press

NEW HAVEN, Conn. — Two men, including one from New Jersey, used the Web site MySpace.com to set up sexual encounters with underage Connecticut girls, authorities said yesterday in what they described as the first federal sex cases involving the popular networking site.

The two unrelated cases come after weeks in which the site's potential dangers have been the topic of discussion for law enforcement, parents and school officials nationwide.

"The Internet has allowed people to invade our own homes, to have conversations with our children in the privacy of our own homes without us ever knowing about it," U.S. Attorney Kevin O'Connor said.

In one case, Sonny Szeto, 22, traveled from Jersey City to Connecticut in October and molested an 11-year-old girl in her playroom while her parents slept upstairs, according to an FBI affidavit.

In the other case, Stephen

FBI said.

Both men face federal interstate sex charges. Szeto, who has since moved to Queens, N.Y., was ordered placed on house arrest with his parents in Nashua, N.H. As of yesterday morning, prosecutors said he was still being held until his family could post \$600,000 bond and cancel his Internet connection.

A message was left with the public defender's office, which represented Szeto.

Letavec, a volunteer firefighter, is being held without bond pending his arraignment in Connecticut. He was represented in Pennsylvania by a public defender, W. Penn Hackney, who would not comment and it was not immediately clear who his attorney would be in Connecticut.

MySpace, a division of News Corp., allows its 54 million users to find online friends by searching for their school or their interests. The site prohibits minors 13 and under from joining, discourages users from posting personal information and provides special protections for those 14 and 15.

Five Students Arrested in Alleged School Threat

By MARCUS KABEL, AP

RIVERTON, Kan. (April 20) - Five teenage boys accused of plotting a shooting rampage at their high school on the anniversary of the Columbine massacre were arrested Thursday after a message authorities said warned of a gun attack appeared on the Web site MySpace.com.

Mike Gullett, AP

Riverton High School officials investigated after learning that a threatening message had been posted on the Web site MySpace.com.

Talk About It: [Post Thoughts](#)

Sheriff's deputies found guns, ammunition, knives and coded messages in the bedroom of one suspect, Sheriff Steve Norman said. Authorities also found documents about firearms and references to Armageddon in two suspects' school lockers.

"What the resounding theme is: They were actually going to do this," Norman said.

Find out

■ **In Winslow Township, three** Winslow High School students and one from Hammononton High were charged with conspiracy to commit murder, terroristic threats and terrorism. They allegedly plotted to execute approximately 25 teachers and students during a lunch period. The alleged ringleader of the group, a 15-year-old student at Winslow Township High School, had a Satanic pentagram on his MySpace home page and mentioned that Satan was his "one and only hero." There were no threats published on the Web site, however, and authorities would not confirm or deny whether they have accessed the teen's page for evidence.

■ **Judy Cajuste, 14, of** Roselle, reportedly met a man from Newark through her profile on MySpace.com. Cajuste's body was found in a Newark garbage container in January, a few days after her family reported her missing.

■ **On April 12, a 15-year-old** female student at Washington Township High School in Gloucester County was charged with harassment when authorities found an alleged "hit list" on her MySpace page. Authorities in Washington Township said the sophomore had not accessed the page since January and may have created the list as far back as 2004 when she was in middle school. There were specific threats against 17 people on the list, and school officials notified the parents of each student, police said.

Newsgroups – Outlook Express

◆ Posting of Information

The screenshot displays the Outlook Express interface. The title bar reads "alt.binaries.pictures.erotica.amateur - Outlook Express". The menu bar includes File, Edit, View, Tools, Message, and Help. The toolbar contains icons for New Post, Reply Group, Reply, Forward, Print, Stop, Send/Recv, Addresses, Find, Newsgroups, and Headers. The main window is titled "alt.binaries.pictures.erotica.amateur".

The left pane shows a list of folders under "alt.binaries.pictures.erotica.amateur", including "alt.binaries.pictures.erotica.young", "alt.binaries.pictures.erotica.amateur (876)", "alt.binaries.pictures.erotica.amateur.facials (586)", "alt.binaries.pictures.erotica.amateur.female (2358)", "alt.binaries.pictures.erotica.amateur.lolita (105)", "alt.binaries.pictures.erotica.animal (140)", "alt.binaries.pictures.erotica.celebrities (180)", "alt.binaries.pictures.erotica.clits (338)", "alt.binaries.pictures.erotica.close-up (631)", "alt.binaries.pictures.erotica.creampie (106)", "alt.binaries.pictures.erotica.early-teens (45)", "alt.binaries.pictures.erotica.facial (63)", "alt.binaries.pictures.erotica.facials (853)", "alt.binaries.pictures.erotica.female.ejaculation (76)", "alt.binaries.pictures.erotica.female.genitalia (245)", "alt.binaries.pictures.erotica.female.genitalia.large (276)", "alt.binaries.pictures.erotica.female-ejaculation (416)", "alt.binaries.pictures.erotica.fetish.wet-and-messy (19)", "alt.binaries.pictures.erotica.girlfriends (523)", "alt.binaries.pictures.erotica.groupsex (228)", "alt.binaries.pictures.erotica.incest (42)", "alt.binaries.pictures.erotica.lolita (269)", "alt.binaries.pictures.erotica.readheads (41)", "alt.binaries.pictures.erotica.tasteless (672)", "alt.binaries.pictures.erotica.teen.female (649)", "alt.binaries.pictures.erotica.teen.female.fuck (100)", "alt.binaries.pictures.erotica.teen.female.orgasm (280)", "alt.binaries.pictures.erotica.teen.female.orgasmy (8)", "alt.binaries.pictures.erotica.young (476)", "alt.binaries.pictures.nude.celebrities.female", "alt.binaries.pictures.nudism.celebrities (17)", and "alt.binaries.pictures.nudism.youth.and.families (114)".

The right pane shows a list of messages. The selected message is "Cumplay Movies File 1 of 1 - p_mouthful.a". The preview pane displays the following text:

I have more pictures on my homepage. It's nothing real fancy, but check it out if you like what you see :-)-
<http://www.host-direct.com/users/bjensen/index.html>

Below the text is a photograph of a woman with blonde hair, wearing a white sweatshirt with "MINNESOTA" and "1974" printed on it, and dark pants. She is leaning against a glass display case.

The status bar at the bottom indicates "View Applied", "226 message(s), 220 unread, 656 not downloaded", and "Working Online". The taskbar shows the Start button, several open applications (C:\WINNT..., CFID - Mic..., U:\), and the system tray with the time "12:59 PM".

*Simply put- the Internet can be dangerous and contains unacceptable content. Children can be protected with filtering software and **this is the best.***

- Top Ten Reviews

Integration With Popular Search Engines

The new Net Nanny integrates seamlessly with "Safe Search" options found in popular search engines such as Google, Yahoo, Dogpile, AltaVista, Lycos, AllTheWeb, and MSN. This means your children can't search on a search engine and even see links to blocked sites. This new feature enables better protection against pornographic images when doing an "image only" search. If a child attempts to turn off the safe search capability from the search engine, Net Nanny will turn it back on in real-time as the search is occurring. The only way to bypass the safe search is with your unique administrator password, which only you as the parent knows. Believe it or not, Net Nanny actually blocks content in multiple languages to provide even more enhanced protection for your family.

More than Just Web Protection

Did you know that there are many ways your children can access pornography and questionable content on the Internet. Net Nanny provides full protection on not just the World Wide Web, but also less known but equally dangerous parts of the Internet like the Usenet, Peer-to-Peer downloading networks, Chat Rooms, Instant Messages, FTP, Forums and email. If you have never heard of some of those areas of the Internet, it is possible that your kids have. But don't worry. Net Nanny knows about them, and protects your children from the bad content on them.

Enhanced Reporting

Already recognized as best in class, Net Nanny reports have provided parents with a first class presentation of Internet activity of children. As a parent you will know what sites your children have visited, and what sites they have attempted to visit. You will also be able to see full text of the actual Instant Messages. Net Nanny empowers parents to monitor and or block children's access to certain areas of the Internet. *Internet Predators don't have a chance against parents armed with Net Nanny.*

Remote Management

Net Nanny has enhanced its administration tools. Powerful Remote Management tools exist to help parents to manage and maintain Internet policies remotely if an Internet connection exists. Monitor web browsing and instant messaging **from anywhere!**

Spector Pro Viewer - Recorded Email

Close Window

Click the Email tab to instantly review all Email activity.

Spector Pro saves a copy of every file attachment - allowing you to see what files are being exchanged.

Record all incoming and outgoing email including:

- Outlook (SMTP/POP3)
- MS Exchange
- Hotmail Email
- Yahoo Email
- AOL Internet Email
- Proprietary AOL Email

The screenshot shows the Spector Professional Edition interface. At the top, there's a menu bar (File, Edit, View, Window, Help) and a toolbar with various icons. Below that is a search bar and a 'Delete' button. The main area is a table listing recorded emails. The table has columns for In/Out, Type, Username, Sender, Recipient, Subject, and Date Recorded. One email is selected, and its content is shown in a preview pane below the table. The preview pane shows the text of the email, including a greeting and a paragraph of text.

In/Out	Type	Username	Sender	Recipient	Subject	Date Recorded
Out	Exchange	Sami.y	Sam	snappy	What's Up	Mon, Dec 01, 2003
Out	Yahoo	Jane	Jane (Yahoo)	John	Rendezvous	Fri, Dec 12, 2003
In	HotMail	Jane	jane2	Johns	Re: Dinner plans	Thu, Dec 11, 2003
Out	HotMail	bdoe	BrianDoe (Hotmail)	jdirt	Information I need	Mon, Dec 01, 2003
Out	AOL	sally6	Sally6@aol.com	Bobby	Guess what I did?	Mon, Dec 01, 2003
In	AOL	David	Xxpinstal8	PUGGGY66	Fwd: (no subject)	Mon, Dec 01, 2003
Out	SMTP	JSmith	JSmith@a.com	GAnderson@com.p.net	Excel Spreadsheet you requested	Mon, Dec 01, 2003
Out	HotMail	John	John (HotMail)	Jane	Dinner plans	Thu, Dec 11, 2003

Preview pane content:

John,

I can't wait to see you again tonight! I gave my husband the same old "working late" story I've given him the last three weeks. Can we meet at the Holiday Inn on 4th St. again? I really enjoyed the hot tub in the room last week.

See you then,
Jane

Quickly search the recorded "Email" data for a specific word or phrase.

View the exact date and time the email was recorded.

Recorded email is listed in a familiar Inbox-like interface.

The preview pane lets you view the email exactly as it was sent or recieved.

Click the Chat/IM tab to instantly review all chat dialog and instant message activity.

Captures the title of every chat room and instant message.

Preview pane shows the conversation of all chat room and instant message participants.

Control Your Internet with the

iBoss™

Available online at www.iPhantom.com

The iBoss™ is a revolutionary Internet management device that is powerful and extremely easy to use. Incorporating state of the art hardware architecture, the iBoss™ provides a PC or network with total Internet control, allowing a user to manage their Internet connection. Users can block access to specific categories of Internet destinations, online applications, and manage time spent using specific online programs (i.e. online chat and messenger programs, file sharing, web browsing). The iBoss™ generates reports on Internet activity which can be viewed and automatically E-mailed. Unlike software solutions, one device guards an entire network and makes tampering difficult. Little computer experience is needed!

▶ **Restrict Internet Access to:**

- Web browsing
- E-mail and online chat
- P2P file sharing
- And more...

▶ **Control Internet Rules**

- Simple category blocking
- Application based blocking
- Advanced custom blocking

▶ **Prevent Identity Theft**

- Stop Phishing attempts

▶ **Prevent Viruses & Spyware**

- Block malicious websites

▶ **Monitor & Log Activity**

- View detailed reports
- Automatically E-mail reports

▶ **Simple Plug & Play**

- No software or computer experience required

▶ **Powerful Hardware**

- Faster than software
- Tamper resistant

▶ **Hassle-Free**

- One device protects a single PC or entire network

▶ **Limit Internet Access Time**

- Easy schedule based control

▶ **Compatible**

- Windows®, Mac®, Linux®

▶ **State of the Art Hardware**

- Featuring Freescale™ Technology

The iBoss™ makes it easy to manage a single PC or an entire network.
