During this current time of a pandemic, hospitals and emergency services need blood now more than ever, and opportunities to donate blood are few and far between. The Red Cross has been operating safely throughout the pandemic to continue to hold blood drives and has managed to collect much needed blood - at our last blood drive with the Red Cross, we were able to serve a completely full schedule of donors! That being said, the need for blood is constant, and donating is a one of the best ways to help our community and save lives. Please, sign up to donate if you are eligible, and spread the word!
